Title

Answers to Questions Submitted for RFP **11RFP80266A-DR, Solid Waste Services & Landfill Post Closure**

- 1) Page 3-10, Section 2.22 Georgia Security and Immigration Compliance Act states, “A completed affidavit must be submitted on the top of the bid/proposal at the time of submission...” Does the County desire that Forms E and F be placed on top of the Technical Proposal or bound within it along with the other Section 5 Proposal Forms?

Response: Purchasing Form E – Georgia Security and Immigration Contractor Affidavit and Agreement & Form F – Georgia Security and Immigration Subcontractor Affidavit are to be bound with the Technical Proposal document at the due date & time of the submittal.

- 2) Are business licenses of the prime and subcontractors acceptable certification for the attachments required by Form G? If not, please specify the licenses.

Response: A copy of all parties’ business licenses is sufficient at the due date & time of the submittal.

- 3) Section 3.1.2 and 6.2 (last paragraph). Does the County desire Contract Compliance Exhibits and Financial Information to be bound within the Technical Proposal in addition to being provided in separately sealed envelopes?

Response: Yes. Fulton County wants the financial information and the Contract Compliance Exhibits in a separate sealed envelope as well as bound within the Technical Proposal (hard/paper copy of this document). Neither the financial information nor the Contract Compliance Exhibits are to place on any of the cd’s.

- 4) Section 6.2 requires inclusion of Exhibit H, Form 1 within our proposal, while the Exhibit 1 checklist excludes it. Please clarify if any portions of Exhibit H are due with the proposal.

Response: Yes, Exhibit H - Fulton County First Source Jobs Program is to be completed at the time of submission. If this form does not apply to your company mark the document as being “not applicable” to your firm.

- 5) It is unclear from the RFP scope if the following should be included in the pricing. Could you please confirm.

- a. EPA mandatory Greenhouse Gas (GHG) Reporting - this would include calibration of monitoring equipment (flow meter and gas analyzer) as required by the manufacture, data compellation, and reporting;

Response: Yes, it should be included in your price.

- b. Omnimetrix annual service fee. Yes, it should be included in your price.

- 6) Additionally, can you provide any information on anticipated or historical callout frequency at each site from flare shutdowns due to faults or power outages?

Response: Flare shutdowns are rare less than 5 events per year
